to
Notice to Prospective Offerors
Portsmouth Gaseous Diffusion Plant
Decontamination and Decommissioning Project Acquisition

Department of Energy
Office of Environmental Management

March 6, 2008

Due to both Government and Industry-related scheduling conflicts, the dates for the Portsmouth Gaseous Diffusion Plant Decontamination and Decommissioning (D&D) Project Industry Day have been changed from March 25-26, 2008, to March 31-April 1, 2008. The briefing will take place on Monday, March 31, 2008, followed by the site tour on Tuesday, April 1, 2008. Due to the overwhelming interest in the site tour, participation will be limited to two (2) representatives per company (limitation is for the tour only). The one-on-one briefings will be scheduled separately for the period of April 1-11, 2008, and are anticipated to take place in Springdale, Ohio.

We apologize for any inconvenience these revisions may cause. Specific information on location and schedule will be provided at a later date. Thank you for your interest in this acquisition.
